

### OVERVIEW

- ◆ The parts of the Atlas chamber system are manufactured from recycled polypropylene and have knock-outs for 110mm ducting.
- ◆ The system is available in various sizes and can withstand loadings from 12.5 tonnes (with larger chambers over 25 tonnes).
- ◆ Can be supplied with larger pre-drilled duct entry holes to meet site specific requirements
- ◆ B125 rating - can be reinforced to D400

### FEATURES

- ◆ Available in 5 sizes 300mm, 450mm, 600mm, 750mm & 900mm
- ◆ 75mm Wall Thickness
- ◆ Knockouts suit 110mm Pipe
- ◆ Can be drilled to suit other diameters
- ◆ Lightweight but Extremely Strong
- ◆ Interlocking components
- ◆ Made from Polypropylene (PP)
- ◆ Can be supplied Fully Assembled
- ◆ Made from recycled plastic
- ◆ Fully recyclable at end of life
