

MODUSTAR & MIDUSTAR

Data Guide

DESCRIPTION

The first truly 360° aspect Belisha beacon with high intensity LED arrays giving better visibility on sunny days to approaching vehicles and pedestrians.

Based on the highly successful Modubel and Midubel, this new offering raises safety to an even higher level by improving visibility.

Both beacons are a tough, high visibility retro-fit for Belisha beacon assembly for standard tubular beacon posts. It is also possible to retrofit to existing Simmonsigns amber beacon installations with ease.

All beacons have high quality LED lighting units driven at 24 Volts AC for significantly reduced maintenance and improved safety.
