IPL group | Road Products & Street Furniture

IPL group provides a competitive source for high-quality road products and street furniture for the design, maintenance and management of road networks and mixed-use streetscapes. Our trusted experience, team of skilled personnel and world-class products have made us Ireland's leading single-source for industry-leading designs and intelligent foundation solutions.

IPL group has an international reputation for product innovation, supplying municipal authorities and contractors with infrastructure solutions for rural and urban planning. We deliver aesthetic design, asset protection, road-user safety and also achieve operational aims of reducing maintenance costs, traffic disruption and signal down-time. Working closely with our customers on their unique design specifications, IPL group's products and services provide passive safety, environmental protection and improved management control.

To ensure your continued success and sustainable infrastructure design, we make it our job to understand your operational processes, critical issues and future development plans in order to identify and implement integrated solutions of real value.

IPL group gets the best road products and street furniture working for you.

RETENTION SYSTEM™

SOCKETS FOR POST INSTALLATION

RETENTION SYSTEM™ sockets are intelligent foundation solutions for the installation and maintenance of posts. Essential to sustainable infrastructure design, they add value through improved asset management and performance, reduced operational costs and deliver environmental, health and safety benefits.

RS Mobile Plinth

RS MOBILE PLINTHS

Temporary foundations solutions. Suitable for signage, lighting columns and traffic signal installations during roadworks and seasonal events.

RS POST INSTALLER

Facilitates cabling, post installation and safe roadside work. Raises posts vertically from horizontal workbench position and lowers safely and securely into RS socket.

Solar powered School Crossing GPRS Pulsa

Midustar L.E.D. Beacon

Lumiflex Illuminated Bollard

Contour Illuminated Bollard

Weebol Flexible Bollard

Connector with Cap

16 Pin Connector

TSP Enclosure

Simmons Signs

ROAD SAFETY SOLUTIONS

IPL group with Simmons Signs provide a wide range of road safety solutions. Included in this range, are school warning signs, reboundable safety signs, pedestrian crossing beacons, illuminated and reflective bollards.

GPRS Pulsa & Simpod

IN-POLE ELECTRICAL CABLE ENCLOSURES & CONNECTORS

Water-resistant traffic-signal termination enclosures with vented cap for location behind low level pole access doors, suitable for 114mm poles. IP68 rated cable plugs and connectors suitable for quick and simple connections and disconnection of electrical cables in traffic-signal and lighting columns installations.

Atlas Chamber System

Aten Loop Box

Easyliner Chamber

DUCT ACCESS CHAMBERS & COVERS

Modular duct access chambers for lighting columns and traffic-signal applications. Sizes range from 300x300 to 600x900, with EN124 standard composite covers, B124 and D400 load rated.

QUICK-FLEX REBOUNDABLE BOLLARDS

IPL groups Quick-Flex bollards are suitable for lane protection, cycle paths and a variety of other applications. The design, manufacturing method and high-quality material, ensures optimum bollard flexibility and immediate rebound to its original form after any impact.

FLEXIBLE AND SAFETY BOLLARDS

X-Last range of reboundable bollards bend under applied force or impact and return to original shape. Tested to the requirements of EN12767. Suitable for roadside delineation, parking control and mixed-use streetscapes. Can be supplied with RETENTION SYSTEM™ sockets for easy maintenance.

PASSIVE SAFETY

As a leading manufacturer and supplier in the passive safety industry, IPL group offers a range of passive safety products that have been designed to exceed legislative crash protection standards and bring about real safety improvements in a 'forgiving roadside' environment. These include flexible safety bollards, aluminium posts, electrical isolation systems, cable disconnection plugs and RETENTION SYSTEM socket foundations for passive safety engineering, infrastructure maintenance requirements and replacement of posts in repeat knock-down areas. By eliminating repeat excavation, congestion on the road network is significantly reduced and roadside work and driver safety improved.

STREET DESIGN

As a creative and pioneering company, IPL group understands that the image and quality of the built environment are essential to the well-being and continued success of every development. IPL group has developed a portfolio of unique trademarked products that meet international specifications and standards. The RIVERS range of Irish-made street furniture has been created specifically to meet customer requirements for a competitive supply of quality design bollards, railings, signage and other street furniture in Ireland's changing urban and rural environments.

INTELLIGENT FOUNDATIONS

For those involved in specifying and managing national roads, towns and urban environments, IPL group's intelligent foundations and RETENTION SYSTEM for installing and managing posts, street furniture and roadside objects helps protect the capital investment and huge reliance on essential infrastructure. Street furniture can be cleanly fitted and easily maintained. Signposts, lighting columns and traffic-control systems can be upgraded or replaced quickly. Shallow foundations can be calculated and designed. All post installations in RS sockets deliver significant cost savings and safeguard against disruption, down-time and excavation.

INTEGRATED SOLUTIONS

At IPL group we work to understand our customers' needs, to set new standards and to offer sustainable infrastructure design. From our 40 years in business in Ireland and abroad, IPL group has gained a reputation for innovative products and integrated solutions. As members of professional bodies such as ILP and ITS Ireland, and through our network of trusted partners, we have developed an international perspective and educated knowledge of global best practices. We offer customers access to the latest advancements that improve road safety, design specification, asset management and operational performance. We welcome the opportunity to discuss your specific project requirements. Our dedicated team of experienced personnel will ensure that you receive an informed and courteous service.

IPL group

quality products | excellent service | responsible company

IPL group designs, manufactures and provides an extensive range of infrastructural products and services. High-quality innovative products, creative engineered solutions, excellent customer service and socially responsible business practices define this leading Irish company since its establishment in 1975.

As a company we are committed to the principles of sustainable development throughout all IPL group operations and conduct our business with honesty and integrity at all times. Through the implementation of our core policies, IPL group personnel, customers and partners have the assurance that we meet and exceed legal compliance and deliver best practice. The company maintains and operates an integrated Quality, Safety and Environmental management system that is internationally accredited to ISO 9001, OHSAS 18001 and ISO 14001.

Since 1975, IPL group has been at the forefront of quality infrastructure design, working with our customers on their specific requirements and providing integrated solutions. Whether we are creating intelligent post foundation systems, solving water network control issues or providing industrial process instrumentation, calibration and technical services, we bring 40 years' experience that you can rely on.

Today, IPL group uniquely combines global expertise and local understanding. We aim to build on our past strengths and further develop our professional scope and technical ability; to continually exceed customer expectations and always supply the very best infrastructure solutions, services and quality products. At all times we welcome the opportunity to discuss your project requirements and our dedicated team of experienced personnel look forward to working with you.
