

BS EN 12899:2007 Type 1 TTB, IR3, OH1

DESCRIPTION

For over 20 years the Simbol internally illuminated bollard has been successfully providing essential road information to drivers around the world. Designed to resist tearing and reform with little or no distortion, even after multiple impacts, it reduces the likelihood of damage or injury during a collision.

CONSTRUCTION

Body

Rotationally moulded, UV stabilised, bespoke fully recyclable polymer. Enhanced surface treatment giving a superior, easy clean, low porosity surface as standard.

Graphics

270mm diameter aspect. Integrally moulded graphics carry a 5 year guarantee against fading and delamination. High profile black borders as standard.

Mounting

Full 3mm galvanised mild steel angle fixing frame, providing fixings to industry standard bases.

SIGN FACE OPTIONS
